- Automated, connected, electric, and shared vehicles
- Transportation system management and operations
- Big data
- New materials and processes
- Extreme weather
- Emergency evacuation and response
- Sea level rise
- Flooding
- Economic and societal changes
- SIS, including modal facilities
- Trade & logistics
- Multi-use/multi-modal facilities
- Global, statewide, and interregional connectivity
- Florida’s economic drivers and industries
- Urbanized, non-urbanized, and rural
- Congestion relief
- Land use and community planning
- Regional visions
- Environment
- Economic development
FTP Subcommittees

• Automated, Connected, Electric, Shared (Technology)
  • Broader definition of infrastructure

• Resilience
  • Environmental, weather, economic, operational disruptors
  • Ability to absorb, withstand, and recover from disruptors

• Safety *NEW*
  • Highlights importance of safety and identify new strategies
  • Supports Strategic Highway Safety Plan update and identification of emphasis areas
  • Includes Florida Police Chiefs, Florida Sheriffs’ Association, and FACERS, as well as FTP Steering Committee representatives

• Visit [www.floridatransportationplan.com](http://www.floridatransportationplan.com) to become a friend of a subcommittee

Florida Transportation Plan (FTP)

Florida Transportation Plan Overview
The Florida Transportation Plan (FTP) is the state’s long-range plan guiding Florida’s transportation future. The FTP is a plan for all of Florida – and affects every resident, business, and visitor.

The FTP is important because it not only sets a long-range vision for the future, but it guides transportation decisions today. It considers how we will:
- Attain our goal of zero fatalities on Florida’s transportation system.
- Provide a more efficient and mobile transportation system.
- Meet the needs of a growing and changing population.
- Make our economy more competitive.
- Enhance the quality of life and environment of Florida’s communities.
- Increase opportunities for access to transit and other modes of transportation.
- Address emerging issues such as the rapid changes in technology.

The Florida Department of Transportation (FDOT) and its partners are updating the FTP, and we want you to get involved! As we develop the next FTP, we want to hear from you to understand the transportation issues and concerns that are most important to Floridians.
